

# SPACE PLANNING TIPS

From pocket parks to public plazas, there are myriad variables to consider when determining arrangements of site furnishings. To assist you in this process, we've gathered some basic spacing suggestions **based upon our many years of experience activating outdoor spaces.**

## Bike Rack Spacing Guide

Our basic spacing recommendations for bike racks:

- A.** Place bike racks in a series no less than 36" apart to allow easy access.
- B.** Allow a minimum of 36" between the end of a bike rack and a wall or obstacle.
- C.** Allow a minimum of 72" between bike rack rows to accommodate pedestrian traffic.
- D.** For additional detailed spacing and bike rack planning recommendations, please refer to the Association of Pedestrian and Bicycle Professional's Guide.
