21.

Keep It Casual

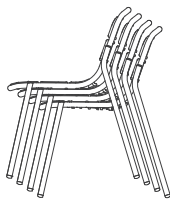

The 21 chair's simple form and honest approach to materials and construction lend a casual personality to outdoor spaces. The steel tube frame, the subtle curve and chamfered edges of the die-cast aluminum slatted seat and back, and a roomy seat create comfortable surfaces that invite multiple postures. Sit sideways, lean back, take it easy.

Keep It Simple

The 21 chair seems at home indoors, but it is designed and made for outdoor spaces and outdoor elements. It comes with arms angled for natural support or without arms and can be stacked up to four chairs high. The chair is finished in a single color, but the frame and slats can be ordered in different colors upon request. Chairs are finished with proprietary Pangard II® HAPS, VOC, and lead-free polyester powdercoat that resists chipping, peeling, and fading.
