

21 Chair

Product Data Sheet

Designed for anywhere and anyone, the stackable 21 chair's roomy seat pan and subtly curved back and seat slats invite you to settle in and relax. The chair's metal tube frame, chamfered edges of the die-cast aluminum slatted seat and back, and 21-inch-wide seat create comfortable surfaces that invite multiple postures. The chair's arms are angled for natural support. 21's simplicity—a bent metal frame and five slats—lends a casual personality to outdoor spaces. The 21 chair comes with or without arms and can be stacked up to four chairs high.

Chair

- The 21 chair is designed to accommodate a variety of postures.
- 21 is a freestanding chair available with or without arms.
- The frame of the 21 chair is formed of steel tubing.
- The seat and back panels are constructed of die-cast aluminum slats.
- Seat pan is 21-inches-wide.
- Seat pan depth is 17-inches-deep.
- Chairs are stackable, up to four high.
- Bumpers/glides are made of tough nylon to resist damage from dragging on rough surfaces.

Finishes

- All metal is finished with Landscape Forms' proprietary Pangard II polyester powdercoat, a hard yet flexible finish that resists rusting, chipping, peeling and fading.
- The 21 chair comes standard in one color, but can be customized in color combinations.
- Visit landscapeforms.com for standard color chart.

To Specify

- Specify 21 chair, select with or without arms, and powdercoat color.

Designed by Modello USA
