

ASSEMBLE WITH CARE! Pangard II® Polyester Powder coat is a strong, long-lasting finish. To protect this finish during assembly, place unwrapped powder coated parts on packaging foam or other non-marring surface. Do not place or slide powder coated parts on concrete or other hard or textured surface – this will damage the finish causing rust to occur. Use touch-up paint on any gouges in the finish caused by assembly tools.

INSTALLATION:

Note: DO NOT DRAG unit across concrete or other rough surfaces. This could damage the powder coat finish.

1. Tighten surface mount tabs, if necessary.
2. Set unit in position.
3. Mark hole locations.
4. Move unit. Drill holes according to anchor manufacturer's recommendations.
5. Clear holes of debris. Set unit back in position.
6. Install anchors.

NOTE: Anchor tabs on Glide, Harvest tables, benches and stools are 3/8" thick.
 Anchor tabs on Americana are 3/16" thick.

Tools required:

- Safety glasses
- (4) maximum 3/8" dia. non-corrosive anchors per unit. Anchor holes are 1/2" dia.
- hex keys, 7/32" for Harvest benches, tables and stools and Glide, 5/32" for Americana
- hammer drill with appropriate size bits for specified anchors
- compressed air and wire brush for clearing holes of debris
