OUTDOOR POWER

BY LEGRAND

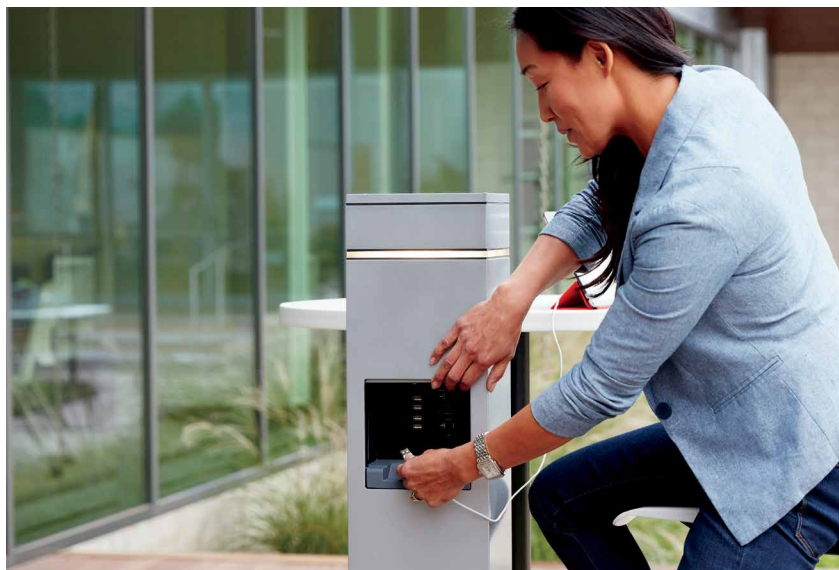

PLUG-IN RECHARGE CONNECT

Where You Live, Learn, Work, Care, Play, and Travel. Outside.

OUTDOOR POWER by Legrand supports outdoor connectivity with a family of charging stations that empower and energize outdoor environments. Permanent, reliable and grid-based, Outdoor Power elements take power to places it's never been before.

We know that being outdoors is good for you.

Now Landscape Forms is helping to make being outdoors an even better experience. We believe in creating responsive, engaging, activated environments that give people what they need so they can spend more time doing the things they want to do, in the outdoor places they want to be. Outdoor charging stations bring connectivity to outdoor working, studying, socializing, relaxing and traveling. These well-designed, high quality power units work beautifully with urban structures and Landscape Forms site furniture to create the next generation of great outdoor places.

POWER PEDESTAL

Outdoor Power is the debut line of outdoor power products from Landscape Forms business collaborator Legrand, a world leader in power, lighting and data delivery services. These products support connectivity and include three models: a Power Pedestal, a Charging Station with LED Area Light, and a Charging Station with Accent Light. All provide access to power in various configurations of GFCI and/or USB outlets. Options include shelves, locks, and the opportunity to add A/V or communication connections if desired. All three models are offered in black, bronze, and silver standard finishes and are NEMA-3R-rated for use in all weather conditions. Day and night, rain or shine, Outdoor Power elements bring a new kind of empowerment to the outdoor places people prize.
