

Go OutdoorTable

landscapeforms®

Product Data Sheet

Landscape Forms is pleased to introduce the GO OutdoorTable, a new platform for outdoor activity. A true original, GO provides a focal point and gathering place, a large work surface with access to data and power on or off the grid, and an optional canopy with lighting. GO is made of robust aluminum extrusions and castings. Its frame is hollow like an airplane wing, channeling technology within sleek and simple forms. Its generous size – 9.5 feet long and 30 inches wide – make it a beckoning element in the landscape. The optional canopy designed to reduce glare on personal devices acts as a spatial anchor. GO is offered in three basic configurations: dining height, standing height and standing height with canopy that enable people to work, meet or just plug in and connect, sitting or standing.

Dining Height

- Table is constructed of a cast and extruded aluminum frame with rolled steel surface panels
- Table must be surface mounted, anchoring hardware is included
- The table features a unique mounting system that allows for leveling adjustment
- Table ships fully assembled
- Table is ADA compliant for dining-height table requirements

Standing Height

- Table is constructed of a cast and extruded aluminum frame with rolled steel surface panels
- Table must be surface mounted, anchoring hardware is included
- The table features a unique mounting system that allows for leveling adjustment
- Table ships fully assembled
- Standing height table is available with hardwired power options
- Power garages hosting charging ports are located on the outer leg panels
- One or two power garages can be specified (for two garages, placement is one on each outer leg panel)
- Power garages can feature GFCI charging ports
- See charging port diagram for hardwired option arrangement

Table	Style	Depth	Width / Length	Height	Weight
	Dining Height	30"	114"	30"	345 lb

Table	Style	Depth	Width / Length	Height	Weight
	Standing Height	30"	114"	40.5"	385 lb

Product Data Sheet

Standing Height with Canopy

- Table is constructed of a cast and extruded aluminum frame with rolled steel surface panels
- Table must be surface mounted, anchoring hardware is provided
- The table features a unique mounting system that allows for leveling adjustment
- Table ships fully assembled
- Canopied table is available with hardwired or solar power options

Hardwired

- Power garages hosting charging ports are located on the inside panels of the table canopy
- One or two power garages can be specified (for two garages, placement is one on each outer leg panel)
- Power garages can feature GFCI charging ports
- See charging port diagram for hardwired option arrangement
- Hardwired tables with canopy are available with optional overhead LED lighting
- LED Lights have a color temperature of 3000k
- Note: hardwired LED lights remain constantly lit
- Through our Specials department, hardwired tables with canopy offer the ability to host technology, such as an all-weather monitor
- Please contact a Landscape Forms representative to evaluate options
- Monitors and other technology accessories are not available for purchase through Landscape Forms.

**Note: A Monitor/TV is only available with the hard-wired version only.*

Solar

- Power garages hosting charging ports are located on the inside panels of the table canopy
- One or two power garages can be specified (for two garages, placement is one on each outer leg panel)
- Power garages feature USB charging ports
- See charging port diagram for solar arrangement
- Solar-powered tables are available with optional overhead LED lighting
- LED lights have a color temperature of 3000k
- LED lights for solar powered tables are programmed to turn on at dusk and turn off at dawn light levels

Table	Style	Depth	Width / Length	Height	Weight
	Standing Height w/ Canopy	30"	114"	80"	755 lb
	Standing Height w/ Canopy, Solar	30"	114"	80"	755 lb
