Litter Receptacle

Date: June 22, 2016 www.landscapeforms.com Ph: 800.521.2546

Hinged lid receptacle

# **Tools Required**

- Safety glasses
- Surface mounting hinged-lid receptacle:
- (2) non-corrosive anchors, maximum 3/8" diameter (not included)

### PROCEDURE FOR INSTALLATION:

#### FOR HINGED LID FREESTANDING LITTER RECEPTACLE:

Unit ships fully assembled and can be set in place.

#### FOR SURFACE MOUNT LITTER RECEPTACLE:

**NOTE**: It is not recommended to locate holes for anchoring until unit is on site.

- 1. Place the unit in the desired position. Lift lid and remove liner.
- 2. Mark anchor locations through the holes in the anchor plates.
- 3. Move the unit to allow access for drilling holes.
- 4. Drill holes at marked locations according to anchor manufacturer's specification.
- 5. Complete the anchor installation according to the anchor manufacturer's instructions.

## TO OPEN UNIT:

Hinged lid: See Fig. 1. A plastic putty knife with a minimum 3-1/2" blade may be also be used to push down on the lever by sliding it in the gap between the lid and the body near the hinge.

**ASSEMBLE WITH CARE!** Pangard II® Polyester Powdercoat is a strong, long-lasting finish. To protect this finish during assembly, place unwrapped powdercoated parts on packaging foam or other non-marring surface. Do not place or slide powdercoated parts on concrete or other hard or textured surface – this will damage the finish causing rust to occur. Use touch-up paint on any gouges in the finish caused by assembly tools.
