

MEGA MAX Classic

Product Data Sheet

From design partner Tuuci, the Ocean Master MEGA MAX Classic defines a new sense of scale for outdoor shade, effortlessly covering multiple tables or lounge areas with a single canopy. Sizes range in square, rectangular and octagonal configurations. Incredibly robust and meticulously crafted, the MEGA MAX is designed to withstand harsh conditions and winds up to 75 mph, for a long lifetime of performance.

Parasol

- MEGA MAX parasols are large scale solution for outdoor shade.
- Canopy frames/panels and poles are aluminum extrusions.
- Parasol comes with an EasyDrive Crank Lift™ system for easy opening and closing.
- Canopy shapes range from square, to round and rectangular in varying sizes of 16' – 24'.
- The mast of the MEGA MAX is 5.25" diameter to help withstand harsh outdoor conditions.
- The ribs of the MEGA MAX feature a large 2" diameter to support the scale of the canopy and defend against wind.
- MEGA MAX comes standard with the Acorn finial.
- MEGA MAX parasols can withstand harsh conditions and winds up to 30mph/55 gust (above ground mount) 45mph/75 gusts (in-ground mount).
- MEGA MAX parasols must be mounted to the ground with either an in-ground hinge base or above ground 1365 or 1885 lb base.
- In-ground hinge bases are provided with mounting anchors.
- Above ground bases are provided with pavers for the ballasts.
- Optional add-on up or down lighting is available with 110v plug in.
- Lighting is hardwired through an outlet via electrical chord.
- Tuuci Ocean Master MEGA MAX Classic does not ship fully assembled.

Mounting

- The in-ground hinge base has hardware options for new pour or existing concrete.
- The hinge base requires concrete that is using 4000 PSI reinforced with number 4 rebar, spaced 12" on center, on both the top and bottom faces, and oriented in both the longitudinal and transverse directions.
- The above ground base (1365 lb) incorporates a hinge base and contains 12 concrete pavers along with metal plated which are all concealed with a cover plate.
- The above ground base (1885 lb) incorporates a hinge base and contains 10 concrete pavers along with metal plated which are all concealed with a cover plate.
- For 20' round, 24' round, 20' square, and 14'x20' rectangle parasols, the above ground 1365 lb base is suggested.
- For 24' square and 18'x24' rectangle parasols, the above ground 1885 lb base is suggested.

Note: If above ground base is provided, the height of the overall product will be increased by height of the base (12.25").
